

Millions of Trees Project

Facebook Page - <https://www.facebook.com/groups/159116437488640>

Planting trees is really about planting hope. Planting trees plants hope for a future where parents and families are able to afford sending their children to secondary school. Planting trees plants hope for a future with a healthy environment through reforestation. Planting trees plants hope for parishes and diocese ministries to have the funds needed to grow their ministries. Planting trees plants hope for the members of the Iringa Diocese for a source of food and funds.

We've planted 1.5 Million Trees! Now on to the next Million... Demand for tree seedlings from Diocese Parishes and Ministry Departments remains high. Pine and eucalyptus trees are being planted for a long-term source of funds. Avocado trees and Mango seedlings are also being planted as both a source of food and for selling in the markets.

They need your support! The hard working people of the Iringa Diocese have everything they need to make this project a success... everything except for the financial resources to pay for the raw materials and workers to plant and tend the tree seedlings each year. They need your financial help to transform lives and the environment for the better!

You can make a difference! Please consider making a donation to the "Million Tree Project." Just think \$10 plants 100 trees! \$100 plants 1000! Spread the word and encourage others to make donations as well. Asante sana! Thank you for your support!
