

US Department of State ¹	US Centers for Disease Control & Prevention ²	BKB Travel Advice
<p>Level 4 – Do Not Travel This is the highest advisory level due to greater likelihood of life-threatening risks. During an emergency, the U.S. government may have very limited ability to provide assistance. The Department of State advises that U.S. citizens not travel to the country or to leave as soon as it is safe to do so.</p> <p><u>CURRENT STATUS (10 June 2021)</u> <i>Do not travel to Tanzania due to COVID-19.</i></p>	<p>Level 4: COVID-19 Very High Level U: COVID-19 Unknown Avoid travel to these destinations. If you must travel to these destinations, make sure you are fully vaccinated before travel.</p> <p><u>CURRENT STATUS (10 June 2021)</u> <i>Avoid travel to Tanzania. Because the current situation in Tanzania is unknown, even fully vaccinated travelers may be at risk for getting and spreading COVID-19 variants. If you must travel to Tanzania, make sure you are fully vaccinated before travel.</i></p>	<p>+Group Travel is neither encouraged nor facilitated by BKB-SPAS or BKB-DIRA.</p> <p>+Individual Travel is strongly discouraged for all but the most urgent of matters.</p> <p>+Vaccinated Travelers should limit interaction (isolate, mask, maintain distance) with unvaccinated Tanzanians due to risk of getting or spreading variants.</p> <p>+Unvaccinated Travelers should not travel to Tanzania.</p>
<p>Level 3 - Reconsider Travel Avoid travel due to serious risks to safety and security.</p>	<p>Level 3: COVID-19 High Make sure you are fully vaccinated before traveling to these destinations. Unvaccinated travelers should avoid nonessential travel to these destinations.</p>	<p>+ Some Travel Resumes for individuals and smaller groups. Visits are encouraged and facilitated by BKB-SPAS & BKB-DIRA for vaccinated travelers.</p> <p>+ Unvaccinated Travelers who <i>must</i> travel, should limit interaction and follow strict risk mitigation protocol for themselves and companions.</p>
<p>Level 2 - Increased Caution Be aware of heightened risks to safety and security.</p>	<p>Level 2: COVID-19 Moderate Make sure you are fully vaccinated before traveling to these destinations. Unvaccinated travelers who are at increased risk for severe illness from COVID-19 should avoid nonessential travel to these destinations.</p>	<p>+ Travel Returns to pre-pandemic patterns with larger groups and fewer restrictions for most travelers.</p> <p>+ Unvaccinated Travelers with elevated risk factors should consult their doctor. All should consider risks for self and companions.</p>
<p>Level 1 - Normal Precautions This is the lowest advisory level for safety and security risk. There is some risk in any international travel. Conditions in other countries may differ from those in the United States and may change at any time.</p>	<p>Level 1: COVID-19 Low Make sure you are fully vaccinated before travel to these destinations.</p>	<p>+ Travel Remains in pre-pandemic modes with larger groups and no restrictions for most travelers.</p> <p>+ Unvaccinated Travelers with elevated risk factors should consult with their doctor and discuss risk.</p>

Additional Considerations: Entry/Exit/Transit requirements vary by country and may change with no advanced warning. As of 11 June 2021, Tanzania requires a Negative RT-PCR within 72-hours *of arrival* and the U.S. requires a Negative COVID-19 test within 72 hours of departure. Quarantine protocol may change with little notice. Currently quarantines are not required for vaccinated travelers in either direction. Does your budget/calendar/insurance allow for such variables?
